NEWS JOTTINGS OF SALEM CITY

Telegram Correspondent Re-
cords Doings of the
People There.

SALEM, April 29.—The Suffrage
League met Thursday night at the
Baptist church. A change in time of
meeting from once a month to semi-
monthly was determined upon and
the second and fourth Thursday
evenings of each month were selected
for the time.

The league made a pledge of \$50
to the state campaign fund, and de-
termined to launch a plan of gather-
ing old paper and rags to obtain or
earn this fund. Plans are maturing
for a public meeting to be addressed
by a prominent speaker.

The marriage of Carl Randolph
and Miss Catherine Curran took
place Thursday evening, the Rev.
John P. White, of the Catholic
church, officiating. The bridegroom
is a son of Mrs. Mary Randolph, and
an industrious young oil field work-
er. The bride is a daughter of Mr.
and Mrs. Peter Curran residing on
Valley street, and is a teacher in the
public schools and a young woman
of very charming personality. They
will reside here.

Mrs. Allen McClain, of Shinnston,
was a guest of Mrs. Ira Williams
and other friends here this week.
The opening baseball game of the
season was played here Friday be-
tween West Milford and Salem high
school teams, and resulted in a score
of 1 to 8, with Salem on the long
end.

**FAMILY AVOIDS
SERIOUS SICKNESS**

By Being Constantly Supplied With
Theford's Black-Draught.

McDuff, Va.—"I suffered for several
years," says Mrs. J. B. Whitaker, of
this place, "with sick headache, and
stomach trouble."

Ten years ago a friend told me to try
Theford's Black-Draught, which I did,
and I found it to be the best family medi-
cine for young and old.

I keep Black-Draught on hand all the
time now, and when my children feel a
little bad, they ask me for a dose, and it
does them more good than any medicine
they ever tried.

We never have a long spell of sick-
ness in our family, since we commenced
using Black-Draught.

Theford's Black-Draught is purely
vegetable, and has been found to regu-
late weak stomachs, aid digestion, re-
lieve indigestion, colic, wind, nausea,
headache, sick stomach, and similar
symptoms.

It has been in constant use for more
than 70 years, and has benefited more
than a million people.

Your druggist sells and recommends
Black-Draught. Price only 25c. Get a
bottle to-day.

AS A WOMAN SEES IT Rheta Childs Dorr

Another set of investigators has discovered, for the thousandth time,
more or less, that less than ten per cent of working women are entirely de-
pendent upon their wages for a living. That is, that the great majority of
working women live at home and contribute to a family wage.

The latest is from the United States department of labor, which is in-
vestigating unemployment among women in department and other retail stores of
Boston. Out of 1,156 women whose cases were personally inquired into only
107 had nothing but their salaries to live on. Sixty women were partially
dependent, 976 were principally dependent and thirteen worked for something
a line above necessities.

However, of all the women investigated only 173 had no family demands
on their wages. Four hundred and thirty-three had to contribute regularly to
the family income, 521 had to contribute from time to time and twenty-nine
had to support a family. Over ninety per cent of all the workers were young
and unmarried.

Only one of these facts deserves to be nailed down and further examined.
Out of 1,156 working class families 983 were supported in part by unmarried
girls.

In other words, the family has not changed while economic conditions
have. The family still exists by the efforts of all its members, whereas the
world has ceased to be a place where, rooted in the soil, the family has a
permanent abiding place.

Rowntree, in his famous study of poverty in the city of York, England,
pointed out that a distinct curve of poverty could be plotted for every work-
ing man and his wife, showing them most helpless in their infancy and old
age, the two periods when society owes them protection.

The working man is at a high point of the curve when he is young and
unmarried, or supporting only a wife. He begins to go down when the first
child arrives, and he touches the lowest point, that is, he is poorest, when his
young family is complete. When the first child reaches working age the
man begins to climb, and he is at the highest point once more when all the
children are contributing to the family income.

The descent begins when the oldest child marries, and after that the
curve travels inexorably downward to a poverty-cursed and dependent old age.
It is this family income we shall have to study; how to provide a dis-
tribution of profits which will make it possible for the individual to live and
develop outside a group which, in order to perpetuate itself, has to break up,
leaving the old stranded and alone.

ELDER BALDWIN TO PREACH HERE

Elder Richard Baldwin, of Sharon, Pa., who is representing the Re-
organized Church of Jesus Christ, whose headquarters are at Lamoni, Iowa,
will deliver a series of sermons in its church at Stealey Heights begin-
ning Sunday morning and continuing each evening at 7:45. Elder Baldwin
was here about a year ago and made many friends for the cause of Christ
and for himself. Everybody is invited to go to these meetings. The
church is at the corner of Stealey and Baker avenues.

OIL AND GAS DEVELOPMENT OF TRI-STATE

Latest Reports of Operations in
West Virginia, Pennsyl-
vania and Ohio.

The lower West Virginia districts
are completing more wells than any
other section in the eastern fields.
Cushers have no part in the list of
completions, but this does not deter
operators from continuing develop-
ment work. In addition to the activ-
ity in the old districts, they are mak-
ing an effort to find new pools. On
Cabin Creek, Cabin Creek district,
Kanawha county, the United Fuel
Gas company has the rig completed for
a second test on the Imperial Col-
liery Company's tract. In the same
district the South Penn Oil Company
has the rig completed for a second
test on the Coalburg Colliery Com-
pany's tract. The Columbus Prod-
ucing Company, operating on William's
Coal Company's tract on Long Bottom
Run, is getting quite active in devel-
opment work. This company has
completed fifteen wells on this tract
and is drilling eight more.

On Blue Creek, Elk district, the
Ohio Fuel Oil Company has drilled a
test on the Mary F. Myers farm
through the Weir sand. It is good for
ten barrels a day. On Pinch creek, in
the same district, the same company
has completed and shot its test on
the Mary J. Abbott farm. It will
make a twelve-barrel producer. This
location is one-fourth of a mile west
of the South Penn Oil Company's No.
1 on the F. G. Woody farm.

In Union district, Wood county, the
South Penn Oil Company's No. 21, on
the Archie Elliott farm is in and
good for five barrels a day in the
salt sand. On Sycamore Run, Smith-
field district, Roane county, the same
company has now completed and shot
No. 22 on the William Looney farm
and it shows for a six-barrel producer.

Duster in Pleasant County.
In Washington district, Pleasant
county, Parsons and Sweeney Broth-
ers drilled their test on the B. F.
Standford farm through the Keener
sand and found it barren. In Union
district, McMullin and Clendenning's
second test on the O. D. Wells farm
is a duster. There is a good deal of
test work under way and starting in
this district. Taylor and Routenbach
have started to drill a test on the

W. and J. Martin farm. Neely and
Company are drilling on the M. M.
Stewart farm and the Twigg's Oil and
Gas Company is starting No. 2 on
the Smiley Wagner farm. The Big
Three Oil Company is drilling No. 2
on the R. A. Gorrell farm. Silder
and Company have moved in a drill-
ing machine at a location on the Al-
bert Delong farm. Across the line
in Union district, Tyler county, the
Coal Run Oil Company has the rig
completed for a test on the W. Neu-
wander farm.

Southeastern Ohio.

In the deep sand territory in
southeastern Ohio in Ward township,
Hocking county, the Ohio Fuel Sup-
ply company completed and shot in
the Clinton sand its test on the Webb-
Dawley farm and it produced 35 bar-
rels the first twenty-four hours. The
location is 1,400 feet northeast of
the test on the Quigley heirs' farm.

In Jackson township, Perry coun-
ty, the National Oil Corporation com-
pleted No. 3 on the Sophia Miser farm
and it is showing for a thirty-barrel
producer. In the southwest quarter
of section 18, Green township, Hock-
ing county, the Fisher Oil Company
completed and shot its test on the
Laura A. Leslie farm. It is located
3,000 feet in advance of production
and produced fifty-five barrels the en-
suing eighteen hours. The size and
location of the well opens up new ter-
ritory.

Producers in Washington County.
In the shallow sand territory in the
Reas Run district, Washington coun-
ty, Willard Thornly and Company
drilled No. 6 on the Deucher-Bliss
farm through the Maxon and Big
Lime formations and developed oil in
both. It was given a shot at both lev-
els and shows for a thirty-barrel pro-
ducer. In the same district, J. H. H.
Kiggins and Company completed and
shot No. 4 on the W. L. Riggs farm
and it is showing for a thirty-barrel
producer in the Maxon sand.

In Sunbury township, Monroe coun-
ty, the Natural Gas Company of West
Virginia is drilling a test on the John
Eberly farm. In Malaga township
the same company is drilling a test
on the Jacob Farber farm. In Cen-
ter township Edward Simpson and
Company have the rig completed for
a test on the G. M. Kerr farm. Mid-

Safe Medicine for Children.

"Is it safe?" is the first question
to be considered when buying cough
medicine for children. Chamberlain's
Cough Remedy has long been a fa-
vorite with mothers of young children
as it contains no opium or other nar-
cotic, and may be given to a child
as confidently as to an adult. It is
pleasant to take, too, which is of
great importance when a medicine
must be given to young children.
This remedy is most effective in re-
lieving coughs, colds and croup. Ob-
tainable everywhere. — Advertise-
ment.

dleton and Company are drilling a
test on the Michael Whal farm.

Southwest Pennsylvania.
Light wells in parts of the south-
west Pennsylvania fields do not dis-
courage operators from keeping up
development work. In Beaver county
all of the late completions are very
small. In Hanover township, C. F.
and G. B. Andrews completed No. 3
on their own farm and it is not bet-
ter than a two-barrel producer. Back
of Baden, in Economy township, J.
G. Hoffman and Company's test on
the Dunn heirs' farm, which came in
a gasser a short time ago, has been
given a shot and turned it into a
light oil producer.

MOUNT CLARE MURMURINGS

Events of the Community Are
Set Down by a Telegram
Correspondent.

MT. CLARE, April 29.—Miss
Esther Bartlett, of Philippi, a former
teacher in the public schools here,
has opened a select school for the
spring term at Mt. Clare.

The Rev. H. D. Workman and lit-
tle son, Ernest, are at Charleston,
this week to visit his daughter, Mrs.
Steed, and to take his first look at
his "brand new" granddaughter,
which made its appearance in the
Steed home recently. Mrs. Work-
man, who had preceded him there,
will accompany him home.

While out playing recently little
Stanley Ferren and Helen Lowther
got some poke root and thinking it
was a pansy, ate a quantity of it,
which came near costing them their
lives. The prompt arrival of a doc-
tor and the free use of emetics
brought them around all right after
much suffering, but both of the lit-
tle tots declare they do not want any
more pansies.

Bruce Norman and little daughter,
Lillian, spent several days with
friends at Johnstown this week.

Mrs. A. H. Booth and daughter,
Marjorie, were shopping in Clarks-
burg recently.

Mrs. May Pickett, of Richwood, is
a guest of her niece, the Misses Kate
and Ella Pickett, this week.
Mrs. Sheldon Law was a guest of
her parents at Rosemont recently.

Miss Isadore Stout, of Bridgeport,
was a recent guest of Mrs. M. D.
Lynch.

Carl Washburn, of Clarksburg,
was looking after insurance busi-
ness Thursday.
Born to Mr. and Mrs. M. L. Wolfe,
recently, a new baby girl.

S. L. Blake has let the contract
for a fine new eight room residence
to be erected near his present home.
J. H. Hardway, of Lost Creek, and
G. L. Norman, of this place, will do
the work.

Dr. J. W. Livesay has purchased

a new car, and he is said to be spend-
ing his spare time in praying for
the mud to dry up.

Antonio Dukes, one of the prop-
rietors of the Midway theater here, who
also works during the day at the
Marshall mine, was severely hurt by

a fall of slate Thursday afternoon.

The extent of his injuries has not
been ascertained. On account of the
accident no show was given Thurs-
day evening.

The circus at Clarksburg Thurs-
day is being talked of considerably
in this neighborhood and likely a
large delegation will attend from
this vicinity.

KEELEY CURE
4240 Fifth Avenue, Pittsburgh, Pa.
Established 28 years. Removes all desire
for drink and drugs without causing dis-
ease to the patient. If you are interested,
it will be to your advantage to investigate.

AEOLIAN-VOCALION

These things make the Aeolian-Vocalion
the greatest phonograph in the world:

- (1) A greatly improved TONE. A fuller,
richer tone than you have ever heard be-
fore on a phonograph.
- (2) You can play the Aeolian-Vocalion yourself.
A simple pressure on the Graduala in-
creases or softens the volume of tone as
you wish. You can bring out the full
beauty of the music as exactly as an artist
would on his violin or piano.
- (3) More VOLUME. This is especially de-
sirable for dancing. The Aeolian-Vocalion
will also play as softly as desired to fit the
needs of a smaller room.

In spite of these and many other improve-
ments, the Aeolian-Vocalion costs no
more than other good phonographs.

Demonstrations daily at our salesrooms.

PRICE FORM \$35.00 UP.

CHARTERS
Are Issued by the Secretary of
State to Three New State
Concerns.

CHARLESTON, April 29.—Cor-
tificates of incorporation have been
issued by the secretary of state to the
following concerns to operate in West
Virginia:

The Mountain Investment Com-
pany, of Logan to deal in realty; au-
thorized capital \$5,000; incorpora-
tors are George R. White, R. S.
White, J. M. Moore, John A. Ellis, of
Logan, and Burley White, of Peach
Creek.

The Fox Dry Cleaning Company, of
Huntington; authorized capital, \$5-
000; incorporators, Sam Fox, Dave
Fox, Leo Fox, Erwin Fox and F. W.
McGulough, all of Huntington.

The Buckhannon Steam Laundry
Company, of Buckhannon; authorized
capital \$10,000; incorporators, G. F.
Stokert and D. E. Scott, of Buckhan-
non; W. A. Lawler, of Fairmont; and
J. J. Kaufman, of Grafton.

An Incentive to Save

If you consider earnestly
all the things you could ac-
complish if you had more
money at your disposal, and
then stop to think that a
great many of these things
are surely within your reach
if your practice thrift and
keep your eyes open for op-
portunities, you will have all
the incentive necessary to
save money.
